

HRI International Homeopathy Research Conference

Malta, 9 – 11 June 2017

Poster Programme

Day 1 – Cutting Edge Research in Homeopathy

FRIDAY 9 JUNE 2017

15:50 – 16:50 Poster talks – Plenary session

A series of brief talks (5 mins talk plus 2 mins for questions) highlighting a varied selection of posters from the evening viewing session to follow.

15.50 **Dr Stephan Baumgartner**, Germany. *Development of a Pisum sativum bioassay to test effects of homeopathic pillules*

16.00 **Dr Joyce Frye**, USA. *Individualized homeopathy reduces symptoms of chronic chikungunya in Haiti*

16.10 **Dr Gualberto Diaz-Saez**, Spain. *Use of homeopathic medicines in a public primary care setting*

16.20 **Zofia Dymitr**, UK. *Investigating provers' experiences: a qualitative investigation of participants' experiences of homeopathic pathogenetic trials*

16.30 **Dr Lefteris Tapakis**, Greece. *Analysis of cases with panic attacks treated with classical homeopathy*

16.40 **Dr Carlo Rezzani**, Italy. *Clifical: first cases output*

16.50 **Dr Lionel Milgrom**, UK. *Why is catalase so fast? A holistic approach to enzyme biochemistry*

17:00 — 19:00 Poster session

Enjoy light refreshments and a glass of wine while you explore the posters. Authors will attend their posters for one hour, beginning at either 17.00 or 18.00, allowing them time to share their work with you as well as visiting their colleagues' posters. The printed programme available at the Conference will provide these times for each poster.

Dr Leena Bagadia, India. *To demonstrate the efficacy of homoeopathic similimum on mild to moderate essential hypertension by modifying the underlying anger state, trait and expressions*

Dr Indira Bala Krishna Pillai, India. *Homoeopathic management of uterine fibroids*

Dr Stephan Baumgartner, Germany. *Development of a *Pisum sativum* bioassay to test effects of homeopathic pillules*

Barbara Braun, Swaziland. *Homeopathy as a means of conserving endangered medicinal plant species: a homeopathic proving of an important herbal medicine in Southern Africa*

David Brulé, Canada. *An N-of-1 study of homeopathic treatment of fatigue in patients receiving chemotherapy*

Dr Gualberto Diaz-Saez, Spain. *Review of effectiveness studies of homeopathy for respiratory and ENT complaints*

Dr Gualberto Diaz-Saez, Spain. *Use of homeopathic medicines in a public primary care setting*

Dr Nieves Dominguez-Agüero, Spain. *Study about knowledge and use of homeopathy for pregnancy and labour in a primary care centre of Madrid*

Dr Ashvini Kumar Dwivedi, India. *A cross sectional study to assess the symptomatic relief among the BPH patient attending homeopathic clinic in Indore city*

Zofia Dymitr, UK. *Investigating provers' experiences: a qualitative investigation of participants' experiences of homeopathic pathogenetic trials*

Dr José Enrique Eizayaga, Argentina. *Objective homeopathic signs: how reliable are they?*

Dr Joyce Frye, USA. *Individualized homeopathy reduces symptoms of chronic chikungunya in Haiti*

Dr Tim Jäger, Germany. *Development of a test system for homeopathic preparations using mercury-stressed duckweed (Lemna gibba L.)*

Dr Christien Klein-Laansma, Netherlands. *Measurement is the key to knowledge - registration in homeopathic practice*

Dr Hildegard Klingberg, Germany. *Homeopathy in the treatment of mental and behavioural disorders – a bibliometric analysis of published case reports*

Dr Maria Olga Kokornacyzk, Switzerland. *Phase transition based methods in research on homeopathy: a review*

Dr Marija Kovandzic, UK. *Reflections on possibilities of integration of homeopathy in publicly funded primary care: findings from a historical qualitative case study*

Dr Chetna Deep Lamba, India. *Evaluation of homeopathic treatment in polycystic ovarian syndrome -a single blind randomized placebo controlled pilot study*

Dr Vera Majewsky, Switzerland. *Reproducibility of the effects of homeopathically potentised Argentum nitricum on the growth of Lemna gibba L. in a randomised and blinded bioassay*

Dr Lionel Milgrom, UK. *Why is catalase so fast? A holistic approach to enzyme biochemistry*

Dr Lionel Milgrom, UK. *Genus epidemicus: are quantum-based metaphors necessary for the homeopathic understanding of epidemic disease?*

Dr Hazel Partington, UK. *Future directions for homeopathy research*

Dr Hima Bindu Ponnampal, India. *Individualized homeopathic intervention (Ihi) in diabetic foot ulcer (Dfu): a randomized controlled pilot study(Rcps) using Calendula q vs normal saline(ns) for ulcer dressing*

Christa Raak, Germany. *Individualized medicine and homeopathy: an inseparable entity? A review of current research and literature*

Dr Carlo Rezzani, Italy. *Clifical: First cases output*

Dr Irene Dorothee Schlingensiepen, Germany. *Homeopathic add-on treatment to improve rehabilitation and quality of life in brain tumor patients following surgery - an exemplary case study*

Dr Irene Dorothee Schlingensiepen, Germany. *Significant and sustained improvement in patients with post-traumatic disorder following single-remedy simillimum prescriptions*

Dr Rajesh Shah, India. *The journey through new drug discovery in homeopathy*

Jacqueline Smith, UK. *Homeopathy reduces service users' self-reported emotional distress in a charity supported rural community clinic in Ghana*

Dr Lefteris Tapakis, Greece. *Analysis of cases with panic attacks treated with classical homeopathy*

Dr Sonia Tuteja, India. *A randomised placebo control parallel group study to evaluate efficacy of homoeopathic medicine in patients with rheumatoid arthritis*

Dr Susanne Ulbrich-Zürni, Switzerland. *Opportunities and limitations of the N-of-1 clinical trial design in homeopathy research*

Dr Gyandas Wadhvani, India. *Typhoidinum in clinical practice: some preliminary observations from a case series*

Dr Gyandas Wadhvani, India. *Retrospective analysis of usage of a polychrest homeopathic remedy, Lachesis, in a primary health centre*

Please note that although every attempt will be made to follow the programme as described, it remains subject to change.
