

Cutting Edge Research in Homeopathy **Malta 2017**

Film Menu

3rd HRI International Homeopathy Research Conference

9-11 June 2017, Radisson Blu Hotel, St Julian's, Malta

HOMEOPATHY
RESEARCH INSTITUTE

Filmed presentations

43 filmed presentations from the Malta 2017 Conference Programme are available to stream online.

All films can be viewed completely **free of charge**, thanks to the generous support of our conference AudioVisual sponsors, the Hong Kong Association of Homeopathy, Macau Association of Homeopathy and Living Homeopathy Ltd.

The Malta 2017 films include 4 keynote presentations (30 mins), 30 oral presentations (15 mins), 5 poster talks (7 mins) and 3 updates from international research organisations (7 mins).

A dropdown menu allows you to choose themed playlists for your convenience. With individual talks lasting from 5 to 30 minutes, you can listen to the best homeopathy researchers around the world at your own pace and convenience.

Watching all films will provide 11.5 hours of learning time, so check with your registering organisation for validity as a CPD activity.

For information about special arrangements for those running University or College courses, please contact us via communications@hri-research.org.

Playlists (for full list of talks see below)		Number of talks	Approximate duration
1	International Research Organisation Updates	3	20 mins
2	Keynote Presentations	4	2 hr
3	Homeopathy and Antimicrobial Resistance (AMR)	3	1 hr
4	Clinical Research 1: Systematic Reviews & Meta-Analyses	4	1 hr 20 min
5	Clinical Research 2: Randomised Controlled Trials	3	1 hr
6	Clinical Research 3: Qualitative & Observational Studies	6	1hr 30 min
7	Provings & Veterinary Research	4	1 hr
8	Fundamental Research & Mechanism of Action	4	1 hr
9	Lab-based Research – Plant Models	4	1 hr
10	Lab-based Research – Cell Models	3	45 mins
11	Poster Talks	5	45 mins

Any talks included in the conference programme but not listed here are unavailable, either because the work presented has not yet been published or due to last minute programme changes during the event.

Playlist 1 – International homeopathy research organisations

HRI - Homeopathy Research Institute

GIRI - Groupe International de Recherche sur l'Infinitésimal (International Research Group on Very Low Dose and High Dilution Effects)

WissHom - Wissenschaftliche Gesellschaften für Homöopathie (Scientific Society for Homeopathy)

Playlist 2 – Keynote Presentations

Dr Stephan Baumgartner, Germany. *Highlights from 20 years of basic research in homeopathy*

Prof Michael Frass, Austria. *Influence of adjunctive classical homeopathy on global health status and subjective wellbeing in cancer patients – a pragmatic randomized controlled trial*

Dr Emma Macías-Cortés, Mexico. *Individualized homeopathic treatment and Fluoxetine for moderate to severe depression in peri- and postmenopausal women (Homdep-Menop Study): a randomized, double-dummy, double-blind, placebo-controlled trial of basic research in homeopathy*

Prof Harald Walach, Germany. *Homeopathic pathogenetic trials – trials and tribulations and a potential way forward*

Playlist 3 - Homeopathy and Antimicrobial Resistance

Dr Peter Fisher, UK. *Homeopathy and antimicrobial resistance*

Dr Alison Fixsen, UK. *Can homeopathy offer a viable alternative to antibiotic use in the treatment of upper respiratory tract infections? A review and discussion of the literature*

Dr Petra Klement, Germany. *Therapeutic effectiveness of a complex homeopathic medication in patients from 6 to 60 years with recurrent tonsillitis*

Playlist 4 - Clinical research: Systematic Reviews & Meta-Analyses

Dr Katharina Gaertner, Switzerland. *Systematic review of clinical trials of potentized substances – methods and subgroup-analyses*

Rachel Roberts, UK. *The Australian Report – an in-depth analysis of the highly influential 2015 overview report on homeopathy*

Dr Robert Mathie, UK. *Model validity and risk of bias in randomized, placebo-controlled trials of non-individualised homeopathic treatment: impact on meta-analysis findings*

Dr Robert Mathie, UK. *Systematic review of 'pragmatic' randomized controlled trials of individualized homeopathic treatment*

Playlist 5 - Clinical research: Randomised Controlled Trials

Philippa Fibert, UK. *Preliminary feasibility and clinical results of a pilot study of treatment by homeopaths for children with ADHD using the trials within cohorts (Twics) design*

Dr Christien Klein-Laansma, Netherlands. *International randomized controlled pilot study on homeopathy and PMS: latest outcomes, opportunities and pitfalls*

Dr Rajesh Shah, India. *A randomized, double-blind placebo-controlled, multi-centric clinical trial of ultra-diluted mycobacterium Tuberculosis nosode (Emtact 30C) in the management of recurrent upper and lower respiratory tract infections*

Playlist 6 – Clinical Research: Qualitative & Observational Studies

Dr Klaus von Ammon, Switzerland. *More clinical observations suggesting an immaterial mode of action in potentized remedies*

Dr José Enrique Eizayaga, Argentina. *Prevalence of homeopathic aggravation in chronic patients*

Dr Elio Rossi, Italy. *Homeopathy and complementary medicine in patients with breast cancer at the hospital of Lucca (Italy): clinical results*

Dr Lex Rutten, Netherlands. *Prognostic factor research on homeopathic cough treatment in India*

Prof Dr Irene Schlingensiepen, Germany. *Does methodology matter? A long term comparative analysis of current homeopathic methodologies*

Ka Lun Aaron To, China. *Individualized homeopathic treatment in addition to conventional treatment in type II diabetic patients in Hong Kong – retrospective cohort study*

Playlist 7 – Provings & Veterinary Research

Dr Robbert van Haselen, UK. *Validating the clinical predictive value of homeopathic provings: a pilot study comparing retrospectively collected proving and clinical data*

Prof Ashley Ross, South Africa. *The validity of experimental symptoms in homoeopathic pathogenetic trials: A comparative appraisal of the number and quality of symptoms in placebo and verum groups*

Dr Peter Smith, Germany. *A thematic analysis of seven recent high quality monospecies (Sus Scrofa Ferus Domesticus) sarcode provings*

Dr Cidéli Coelho, Brazil. *Use of ultradiluted medications, Nux vomica and Paper somniferum, as an aid to the anesthesia recovery of cats submitted to elective ovariohysterectomy*

Playlist 8 – Fundamental Research & Mechanism of Action

Dr Steven Cartwright, UK. *Understanding the nature of the interaction between potencies and solvatochromatic dyes; recent advances*

Dr Alexander Tournier, Germany. *Is homeopathy really that implausible?*

Dr Michel van Wassenhoven, Belgium. *A comprehensive approach of homeopathic medicine, nanoparticles search, solvent and electron behavior using a metal and a plant model to answer the question, "What is the signature of a homeopathic dynamized medicine?"*

Sandra Würtenberger, Germany. *Physicochemical investigations of homeopathic potencies: a systematic review of the literature*

Playlist 9 – Lab-based Research: Plant models

Dr Stephan Baumgartner, Germany. *Development of a Pisum sativum bioassay to test effects of homeopathic pillules*

Dr Maria Kokornaczyk, Switzerland. *Preliminary study on force-like effects between As45X, water, and wheat seeds performed by means of the droplet evaporation method*

Anezka Marie Sokol, Denmark. *Screening of different homeopathic preparations regarding specific effects on cress seedlings with a CuCl₂-biocrystallization assay*

Annekathrin Ücker, Germany. *Reproduction of an arsenic-stressed duckweed bioassay using homeopathic preparations of Arsenicum album evaporation method*

Playlist 10 – Lab-based Research: Cell models

Dr Gustavo Aguilier-Velazquez, Mexico. *Effects of homeopathic dilutions of E. angustifolia and T. occidentalis on cervical cancer cells*

Dr Leoni Bonamin, Brazil. *Phosphorus modifies macrophage – E. Cuniculi interaction in a potency-dependent basis in vitro*

Dr Sophie Scheffer, France. *A homeopathic specialty protects from the mutagenic effects of mitomycin C*

Playlist 11 – Poster talks

Dr Gualberto Diaz-Saez, Spain. *Use of homeopathic medicines in a public primary care setting*

Zofia Dymitr, UK. *Investigating provers' experiences: a qualitative investigation of participants' experiences of homeopathic pathogenetic trials*

Dr Joyce Frye, USA. *Individualized homeopathy reduces symptoms of chronic chikungunya in Haiti*

Dr Lionel Milgrom, UK. *Why is catalase so fast? A holistic approach to biochemistry*

Dr Lefteris Tapakis, Greece. *Analysis of cases with panic attacks treated with classical homeopathy*
